## Head of the World

### **Question time!**

If you chose to live on one part of the Head, where would it be?

If this was where we lived, what would happen when the Head awoke?

What do you think would be inside his mouth and eyes?

What do you think is causing the light around him?

Do you think there is a reason why the artist has created such a strange and abstract image?

Is there a deeper meaning behind it?

### **Perfect picture!**

Imagine what the back of his head looks like. Can you draw or describe what you have imagined?

Or, you could design your own version of the Head of the World.
